APPALACHIAN STATE UNIVERSITY

2018

Advisory Board Group Mentoring Program

An opportunity for formal and informal contact with finance professionals to aid in guiding your career development during the spring & fall semesters of 2018.

WALKER
COLLEGE OF BUSINESS

The mission of the Walker College of Business (WCOB) is to offer high quality educational experiences, preparing our students for life-long learning and leadership responsibilities in a dynamic, global environment. **In support of this mission, the Finance, Banking and Insurance Advisory Board (FBI) has partnered with the BB&T student Leadership Center (SLC) and the Finance Student Association (FSA) to create a Group Mentoring Program; a structured way for students considering professions in the area of finance to interact with industry professionals who have achieved success within the field.**

Comments from 2017 participants:

*Dylan Clayton, Amalia Miles,
Christopher Miller*

"The 2017 Group Mentoring Program was instrumental in getting me prepared for a career in the finance industry. My mentor was crucial in my securing an internship this past summer. He also stayed in touch with me throughout the summer, helping me to navigate my first experience with a business professional environment. I would recommend this program to all business students." - Dylan Clayton

"The experience and insight I gained in the Finance Group Mentoring program will help me to succeed in my career. This program inspired me to become more involved in the Walker College of Business, grow my personal brand and continue networking with industry professionals in the community, faculty and other students." - Amalia Miles

"My experience has been nothing but positive. Whether it is a conversation about graduate school or resumes, I have taken something away from every meeting that has helped me to develop into the young professional I am today. Something I really like a lot is that it is not just mentors helping you, but also the mentees participating in constructive group conversations." - Christopher Miller

"My experience with the program thus far has been very rewarding. I've been able to network with professionals in the industry and challenge myself and my ideas when it comes to thinking about and being prepared for my future." - Khedema Robert

"I wouldn't be where I am with professional development if it weren't for this program. All of the mentors are easily approachable and really helpful in getting us to where we want to be." - Joey Antonucci
